to learn

Philosophy & Approach

Love to Learn Preschool – our name, is the very heart of our program.

- * We provide an unhurried environment in which children love to learn--- a safe and loving place filled with exploration, imagination, and wonder.
- * We infuse our curriculum with fine arts and movement which bridges multiple learning styles along with fundamental academics for a multi-sensory approach.
- * Our teachers gently inspire confidence in each child by nurturing curiosity, promoting individuality, investigating creativity and cultivating language skills.
- * We believe that self-expression is integral to a child's self-discovery. We will foster the artist within your child to help them flourish because all are created to create.
- * We place a strong emphasis on classroom community through social cooperation, social engagement, and character development.
- * We desire to provide a positive early childhood learning experience for your son or daughter in preparation for kindergarten and continued lifelong learning.

creativity happens – guide the process – love to learn
